

MAXIMISE YOUR WEALTH, MINIMISE YOUR WASTE

Landfill & Plant Operations Training

Scott Prior

Introduction

Acacia Waste Management Solutions Pty Ltd (AWMS) considers the employee to be the wealth of the organisation. It is important for every organisation to empower their staff and encourage them to embark on a journey to enhance operational knowledge, skills, strategic vision and think better.

AWMS recognises this aspect and in collaboration with Scott Prior has introduced the Landfill and Plant Operations Training.

This training will be tailor-made to suit individual needs, operations, waste quantity, guidelines, licence conditions, compliance and other factors.

This training will improve ones ability to think, plan and execute operational skills with a strategic focus to achieve socially acceptable, cost-effective and sustainable waste management practice.

About Scott

Scott has over 30 years experience, knowledge and skills in waste operation and management. He is highly regarded for his technical knowledge of plant and its operations; and their practical and cost-effective application to landfill operations.

Scott holds a Graduate Certificate in Environmental Management and a Certificate IV in Training and Assessment. He has developed site specific equipment, including a patented safe waste transfer system know as "Everytip" and "Tipwell"; currently being marketed by Wastewell.

Scott has developed this course with a view to provide practical and hands-on training to landfill operators to better understand, manage and operate landfills and subsequently mitigate environmental risks with an improved and sustainable approach.

Core Benefits

- Professional development
- Strategic vision
- Innovative solutions
- Improved management
- Reduced environmental risks
- Better preparedness
- Better planning
- Understanding compliance and guidelines
- Better management of assets and its protection
