

“DATA ACCURACY IS THE KEY TO GOOD DECISION MAKING”

DRONE TECHNOLOGY & LANDFILL MANAGEMENT

UAVs

AirBorn capability - we are licensed by CASA to fly both UAV types

Quality Data = Effective planning + Efficient management of landfill air space and associated costs + Informed decision making.

AWMS in collaboration with AirBorn Insight is offering high resolution, High-accuracy and quick turnaround approach to:

- GIS mapping
- Survey & Contours
- Landfill Airspace & Stockpile Calculation
- Thermal Imaging for methane emission & gas migration investigation
- Soil Balance Inventory
- Waste Compaction Calculation

Core Benefits:

- Accuracy
- Real time data
- Quick turnaround
- Cost effective
- Safe
